PROFESSIONAL SUMMARY

Product Designer with 5+ years shipping end-to-end UX and high-craft UI for web, mobile, and internal tools. Expert in Figma, design systems, interaction design, and turning ambiguous briefs into production-ready interfaces. Strong visual craft, motion, usability validation, and client-facing delivery across AI-enabled and ops-heavy products.

PROFESSIONAL EXPERIENCE

Service & Ops UX Lead | La Bodega, Calhoun, GA

February 2026 – Present

- Designed end-to-end product UX for a loyalty and CRM system that replaced manual coupons with trackable rewards and campaigns, reducing discount exposure from 0.29% to 0.09% of sales and contributing to a 13% revenue lift.
- Shipped Lola, a bilingual WhatsApp shopping assistant and staff dashboard, transforming one-way promotions into guided flows for specials, store information, pickup orders, and seamless staff handoff.
- Led design of a mobile-first, bilingual operations PWA with role-based workflows for shift control, daily management, approvals, and vendor coordination.
- Built decision-support dashboards combining competitor benchmarks across seven U.S. metros, market signals, and sales forecasts to guide planning and promotions.
- Partnered with store leadership and frontline employees to identify operational gaps, validate designs, and ship iterative product improvements.

UX Engineer | Code19 Racing, Indianapolis, IN

September 2024 – December 2025

- Built and scaled an enterprise design system with 30+ components and 100+ tokens in Figma, unifying commerce application UX and accelerating engineering handoff.
- Redesigned CMS UX and information architecture after field research and 20+ stakeholder interviews, increasing retention 66% and reducing bounce rate 36.5%.
- Designed real-time HMI dashboards that translated AI outputs and telemetry into clear, actionable interfaces, improving driver response time by 30%.
- Designed conversational UI flows and safety guardrails for Maveric AI, an NLP-powered driving assistant that explained complex autonomy data in natural language.

UX Designer | Scaling Nature, Finland

May 2024 – June 2024

- Designed end-to-end UI patterns for B2B/SaaS clients through heuristic audits and workflow analysis, improving product discovery and decision-making.
- Led engineering co-creation sessions to convert prototypes into buildable features and ran stakeholder reviews to align success metrics and reduce rework.

UX Designer | Make It Digitel, Kerala, India

August 2021 – August 2023

- Led iterative UX design across digital channels, driving a 47% increase in conversions and a 32% rise in satisfaction through research-backed usability improvements.
- Increased product adoption 15% by synthesizing insights from 25+ user surveys into onboarding and design changes.
- Delivered wireframes, prototypes, and information architecture in Figma with WCAG-minded handoffs and cross-functional design workshops.

Motion Designer | Sprazzo, Kerala, India

November 2019 – June 2021

- Created consistent motion graphics and digital assets across product and brand systems using Adobe Creative Cloud, supporting marketing and product needs.

EDUCATION

Master of Science, Human-Computer Interaction (HCI)

Indiana University–Indianapolis · August 2023 – May 2025

SKILLS

Product & UX: Product Design, UX Design, UI Design, Interaction Design, Information Architecture, User Flows, Wireframes, Journey Mapping, Service Design, Usability, Inclusive Design, WCAG Accessibility

Systems & Craft: Design Systems, Component Libraries, Prototyping, Visual Design, Typography, Motion / Micro-interactions, Figma, Adobe Creative Cloud

Delivery: Developer Handoff, Agile, Client Collaboration, HTML/CSS, JavaScript, AI-assisted Design (Cursor, v0), Conversational UX
