Summary

Senior UX researcher with 5+ years leading mixed-method research, stakeholder interviews, user surveys, heuristic audits, and frontline field research to shape products from insight to launch. MS in Human-Computer Interaction. Turns ambiguous product questions into research-backed, shippable decisions.

Experience

Service & Ops UX Lead

Feb 2026 – Present

La Bodega, Calhoun, GA

- Partnered with store leadership and frontline employees to uncover operational friction through interviews, observation, and service mapping; translated findings into shipped fixes that improved customer discovery, ordering, returns, and service flows.
- Designed and built Competitor Watch solo (React + Python): a decision-support tool that segments users by visit and spend behavior to surface patterns for research, portfolio planning, and product allocation decisions.
- Guided the UX strategy for a loyalty and CRM system using discount and redemption data, helping reduce discount exposure from 0.29% to 0.09% of sales and contributing to a 13% revenue lift.
- Designed bilingual WhatsApp guest flows and built Lola Connect (staff PWA) solo, enabling 96.3% of conversations to close without staff escalation.

UX Engineer

Sep 2024 – Dec 2025

Code19 Racing, Indianapolis, IN

- Led UX strategy and information-architecture redesign through field research and 20+ stakeholder interviews, aligning personas with product objectives and increasing retention 66% while reducing bounce rate 36.5%.
- Designed real-time HMI dashboards that translated AI outputs and telemetry into clear, actionable interfaces, improving driver response time by 30%.
- Shaped conversational UX and safety guardrails for Maveric AI, an NLP-powered driving assistant that made complex autonomy data understandable in natural language.
- Built and scaled an enterprise design system with 30+ components and 100+ tokens in Figma, creating consistency across commerce application experiences.

UX Designer

May 2024 – Jun 2024

Scaling Nature, Finland

- Strengthened product discovery and decision-making for roughly 30 B2B/SaaS clients through heuristic audits, workflow analysis, market analysis, and journey mapping.
- Led recurring stakeholder reviews for 2+ clients to define success metrics, align on technical constraints, and reduce rework through inclusive research-informed design practices.

UX Designer

Aug 2021 – Aug 2023

Make It Digitel, Kerala, India

- Increased product adoption 15% by synthesizing insights from 25+ user surveys into onboarding and experience improvements.
- Led iterative UX design across digital channels, driving a 47% increase in conversions and a 32% rise in satisfaction through research-backed usability improvements.
- Delivered wireframes, prototypes, and information architecture in Figma with WCAG-minded hand-offs and cross-functional workshops that connected research to implementation.

Motion Designer

Nov 2019 – Jun 2021

Sprazzo, Kerala, India

- Created consistent motion graphics and digital assets across product and brand systems using Adobe Creative Cloud.

Education

Master of Science, Human-Computer Interaction (HCI)

Aug 2023 – May 2025

Indiana University-Indianapolis

Bachelor of Science, Civil Engineering

2017 – 2021

PRIST University, India

Skills

Research: Stakeholder Interviews, User Surveys, Heuristic Evaluation, Field Research, Usability Evaluation, Journey Mapping, Research Synthesis, Mixed-Methods Insight Generation

Product & UX: Product Design, UX/UI Design, Interaction Design, Information Architecture, Service Design, Inclusive Design, Accessibility (WCAG)

Delivery: Design Systems, Prototyping, Cross-functional Collaboration, Agile, Figma, AI-assisted Synthesis and Design Tools (Cursor, v0)
